

Music in the U.K.

【Date】 Day : Wednesday

Time : 18 : 30 ~ 20 : 10 (Evening)

Teacher	Brian Neale
Outline	This course, taught by a native English speaker, will focus <i>mainly</i> on UK music, the history of artists and UK society, and song lyrics. The first artists to be studied will be The Beatles.
Teaching Methods	The plan is for each class to begin with a lecture on the topic of the week. Lectures will be followed by discussion, occasional topical videos, listening activities, study of lyrics and the history behind the songs and the artists. If students are interested, there may be opportunities to sing the songs studied in class. If you are not musical then don't worry, you will not be pressured into singing.
Textbook	Handouts will be supplied by the teacher.
Student Level	This will be a challenging class, aimed at students of an intermediate to higher-intermediate level. It is expected that students will be willing to participate in discussions and other activities during each class. Students should also be willing to ask questions as much as required.
